

## Merchant Accounts

Our Merchant Accounts are provided through a partner company, payQuake. They handle everything from the application process to customer and technical support to transaction processing.

From our page you can:

- Purchase Merchant Account applications. (The application fee is non-refundable, regardless of whether or not your application is approved by payQuake.)
- Find a link to payQuake's Web site to fill out the online Merchant Account application.
- Find payQuake's customer support phone number so you may contact them regarding any questions about your Merchant Account.

There are three Merchant Accounts available. Select the one that best describes your business:

- Standard U.S. - Businesses, not considered speciality businesses, based in the United States.
- International - Businesses based outside of the United States.
- Specialty - Businesses that may be considered high-risk in nature. Follow the link labeled Speciality Industries for a list of these businesses.
