

Traffic Facts

Traffic Facts helps you gather, manipulate, and report data that is crucial to your site's success. Traffic Facts does not require any management. Web statistics are updated each day, at midnight Arizona Time with the previous day's statistics. To access your Web site statistics, enter your domain name followed by "/stats" in your browser. For example: www.insert-domain-here.com/stats

To apply Traffic Facts to a hosting account you have already set up:

1. Click Settings for the hosting account you want to add Traffic Facts to.
